

Quality Policy

At Sensorbee, we are committed to delivering high-quality, real-time environmental monitoring solutions that support urban resilience, industrial safety, and regulatory compliance. We aim to consistently exceed our customers' quality expectations and surpass industry standards.

This will be achieved through the following principles:

- We are committed to staying at the forefront of sensor technology by focusing on innovation, quality, and continuous improvement.
- We build quality into every part of our work—from how we design and make our products to how we deliver and support them.
- We put customers first by listening to their feedback and using it to make our products and services better, aiming to meet or exceed their expectations.
- We continuously improve how we manage our operations—starting from the first customer inquiry all the way through delivery and after-sales support.
- We adopt new technologies to improve our solutions and maintain our position as a leader in environmental monitoring.
- We work with trusted suppliers who share our values for quality.
- We promote a work culture where everyone looks for ways to improve and make quality part of their everyday decisions.
- We maintain and continually improve our Integrated Management System based on ISO 9001:2015, ISO 14001:2015, and EN 15267-2 requirements.
